

The Glacier Institute

Since 1983, The Glacier Institute, a private nonprofit, has been providing hands-on, field-based educational adventures to people from all over the world in nature's wildest places, Glacier National Park and the Flathead National Forest, located within the Crown of the Continent ecosystem. The Institute is an equal opportunity provider of education.

Each summer the Glacier Institute hosts several children's camps that include activities such as backcountry camping, fly-fishing and young naturalist studies. In addition, the Glacier Institute also provides outdoor adult education courses that include wildlife biology, glacial geology, spring wildflowers, family camps and railroad history.
